### Cloze Exercise

In Antarctica, you use up \_\_\_\_ of energy just keeping warm. So \_\_\_\_ need good, nutritious food to keep up your energy levels. But \_\_\_\_ you're living at Scott Base, you \_\_\_\_ duck out to the local takeaways for a snack – and the chefs can't just pop out to the supermarket, either. In fact, feeding the community at Scott Base \_\_\_\_ a lot of organisation \_\_\_\_ everything has to come \_\_\_\_ outside Antarctica. Every aspect, from ordering the food \_\_ storing it and disposing of \_\_ leftovers. Has to be carefully thought out.
